

Select Prescription Drug Cost Outliers Excluded from Coverage

Each year, as new drugs are approved or older drugs change in price, we make changes to how they are covered under our plans. We also remove drugs from coverage, if needed. We make these changes to keep costs down, while still allowing choices in care.

About this list: This sheet explains which prescription cost outlier drugs are not covered for most Blue Cross or HMO Louisiana, Inc. plans because multiple lower cost therapeutic alternatives are available. This is not a full list of drugs that are not covered. Please read your plan booklet for more about excluded drugs, as benefits may vary by group and individual plans.

Key: BRAND medications are listed in UPPERCASE and generics in lowercase.

Common Use or Health Problem	Drugs Not Covered	Alternative Drugs, Strengths or Dosage Forms
